Good Manufacturing Practices – G. M. P.

All our packers are on regular bases visited by Pamin and are subject to regular third-party audits and inspections following the Good Manufacturing Practices – G.M.P.
All production units are IFS or BRC certified.

Traceability

All the Pamin fruits and mushrooms are traceable during every stadium: production, packaging, storage, shipment, distribution. We know from where the fruit originates and we ensure this also to our customers. All boxes/paper bags are labeled/printed with full “Identification of the goods” and an “Item Code Description of product & packaging”.

Certifications Pamin and our packers

Principles

From the beginning our approach to business is guided by commitments to the following pillars: Honesty, Loyalty, Respect, Integrity and Continuous innovative solutions.

Our Mission

We are seeking from all our packer's constant improvement in growing and production processes in terms of food safety, so only facilities with the highest standards can be our partners.

Our mutual goal is to minimize environmental impacts. Constant improvements and investments in renewal energy systems became mandatory goal for our production units.

Vast majority of packaging materials used for our products are coming from renewable sources and can be reused or recycled.

Social Responsibility

As family company, we believe that part of our profit should be donated and returned to the society. We actively support local football club and helping many initiatives of Red Cross on local and national level.

We look forward to opportunity working with You!
